

Dear Student,

As you consider your plans for life after high school, we want you to know that you have the support and encouragement of all of your Idaho two- and four-year colleges and universities. With many personal and educational choices open to you, this is a very exciting time!

Taking your ACT during the Spring of your junior year for college admission or placement is an important next step for your future. There are two easy ways to get started: you can either register for the ACT online at <http://www.actstudent.org>, or you can pick up a registration packet at your high school counseling office.

When you register for the ACT, you will have the opportunity to select up to four colleges to receive your scores and information about your interests. Some of the best colleges and universities in the country are right here in your home state of Idaho! We urge you to send your scores to one or more of these schools and take advantage of their wide range of opportunities and majors. To assist you with your college choices, we have listed the Idaho college and university codes on the reverse side of this letter.

It's important for you to be thorough when completing the Student Profile Section during the ACT registration process. Colleges often use this information to provide you with personalized options for academic programs, activities, events, and unique campus characteristics that match your needs and interests.

Great opportunities lie ahead for you, and we are eager to help you realize your dreams. So give your best effort on the ACT, as well as to your remaining high school coursework. Here's a helpful tip: good preparation includes getting a good night's rest and having a focused, but relaxed attitude.

We wish you the best and encourage you to keep striving to achieve great things!

Sincerely,

Your Idaho Colleges and Universities
