

## SPECIAL SCHOOL BOARD WORKSHOP

June 9, 2010

A special workshop of the Board of Trustees of Joint School District # 391 was held in the conference room of the Kellogg Middle School Library on June 9, 2010. The meeting was held pursuant to authority provided by Sections 33-510 and 67-2340 through 67-2347, Idaho Code, and pursuant to the affirmation of proper notice as provided by law.

Board Members present were George Blickenstaff, Susan Costa, and Thad Samuelson. Also present was Superintendent Pommerening, Clerk Rinaldi, Tim Etherton, and Carolyn Turner.

Chairman Blickenstaff called the workshop to order at 5:50 p.m.

Discussion was held on the issue of pay to participate for sports. There have been comments and concerns over a previous motion and clarification is needed at the regular board meeting.

Tim Etherton, Facilities Supervisor, discussed projects with the board that could be completed with Federal Forest Funds. The Canyon Well Project which was bid and approved has not reached viable water after drilling to a depth greater than anticipated. Tim discussed options with the board members of going deeper, moving to a different site or conferring with an adjacent property owner who has indicated that he would allow use of his property.

The board then discussed the bus garage and the differences between the new maintenance shop and what is needed in a bus garage. Initial estimates appear high and the board would like further information gathered.

The condition of the track by Kellogg Middle School and the changes that would allow better use of the property were examined. There is a possibility that some volunteer labor could be used. Options for materials to surface the track will need to be investigated before the bid process could begin. It would not be possible to get this project done this summer.

School building mass notification systems were discussed and the need for upgrades in at least three schools. The board was also made aware of repairs for all schools.

There being no further business, the meeting was adjourned at 6:40 p.m.
